HOT LIST

Clothing, Shoes & Accessories, Jewelry, Gems & Watches

H O L I D A Y 2 0 0 4

The Holidays are right around the corner! To help you prepare, we have created a detailed list of brands and products predicted to be in high demand and short supply this holiday season.

To build this list, we used a combination of three approaches:

1. **eBay Industry Experts:** eBay category managers and the eBay merchandising team are closest to industry news and trends. Because many products that become hot sellers in December are not released until October or November, these individuals can help spot potential hot holiday products in advance.
2. **Products Heating Up:** Analysis of August 2004 eBay sales data was used to identify product categories that already appear to be heating up in advance of the holiday season.
3. **Perennial Products:** Analysis of 2001-2003 eBay sales data was used to identify product categories that have been historically popular on eBay during December.

We applied these methodologies to determine products and categories within eBay's top level-categories (or "meta" categories) including Clothing, Shoes and Accessories; Collectibles; Consumer Electronics; Cameras & Photo; Cell Phones; Jewelry, Gems & Watches; Media Sporting Goods; Toys & Hobbies; and Dolls & Bears.

For each meta, we've included several ways to look at the recommendations:

- **Leaf:** Specific leaves that we believe will be hot.
- **Item Specifics (Attributes):** Where used in the meta, lists the combinations that are likely to be hot.
- **Product:** Products that don't link directly to one leaf and may span multiple leaves.
- **High Demand Listings:** Historical item listings that had particularly high bid counts.
- **Popular Keywords:** Keyword search terms that had particularly high frequency.

We believe that this comprehensive approach will provide you with a useful list of specific products and categories that will be hot this holiday season. Of course, no predictive approach is perfect; given the vagaries of the market, there can be no guarantee that any particular product or category will be hot at any particular time.

We hope that this information will be helpful to you in developing effective selling strategies this holiday season!
